

## Name 5 Things

The cards are available in the student's version.

### Instructions:

Students can be split into groups or work individually for this game, depending on the size of the class. Explain to the students that they are going to pick up a card and read what it says out loud. As soon as they finish reading the timer will start and they must say 5 of the things mentioned to win the card - For example *5 things which are red - a tomato, a chilli, a cherry, a rose and a strawberry.*

Choose a time which is appropriate for their level, and of course consider whether they are working in a group or individually. If the students are lower level and not very confident it might be a good idea to scrap the timer.
